37. 略

五、书面表达（10分）

38. 参考范文:

题目①

Hello, everyone. I'm glad to tell you that we are going to take a field trip. We are going to Yanxi Lake next Friday. We will first get together at the school gate at 8 am, and go there together by bus.

When we arrive at the lake, we will be divided into several groups. Then we will walk along it and enjoy the natural and historical sights. After that, we can rest beside the lake and have a picnic.

By the way, I also have some safety tips for you. First, please stay with your group members so that you won't get lost. Furthermore, don't run beside the lake; that's dangerous!

Hope we will have a good time.

题目②

The most memorable class

We have had thousands of lessons in middle school. Some of them have left a deep impression on me. Among them, the most memorable one is a physics class I had last term.

In the class, our physics teacher Mr. Liu brought some materials and asked us to use them to do an experiment. I was confident that I could do a good job, because I had worked out all of the experiment homework problems. I offered to perform the experiment in front of the whole class. However, I just couldn't put what I had learnt into practice no matter how hard I tried. As you can imagine, I was so embarrassed!

The physics class was really memorable because I learned an important life lesson from it—real knowledge comes from practice. I also learned to be modest and prudent, which will positively influence my future life.
